GSI Technology Announces Participation in Needham Growth Conference

January 7, 2019

SUNNYVALE, Calif., Jan. 07, 2019 (GLOBE NEWSWIRE) -- **GSI Technology, Inc. (Nasdaq: GSIT)**, a leading provider of memory solutions for networking, telecommunications and military, and developer of the Associative Processing Unit (APU), a highly parallel in-place computing solution, today announced that management will participate in the Needham Growth Conference on January 15, 2019 at the Lotte New York Palace Hotel, New York. Mr. Lee Lean Shu, President and Chief Executive Officer, and Mr. Didier Lasserre, Vice President Sales and Investor Relations, will hold one-on-one meetings the same day.

The GSI Technology presentation is scheduled to begin at 9:20 a.m. ET and will be webcast live. The Company's group presentation will be available for the public to access at http://wsw.com/webcast/needham89/gsit/. The webcast will be archived and available for at least 30 days.

About GSI Technology
Founded in 1995, GSI Technology, Inc. is a leading provider of semiconductor memory solutions. GSI's resources are currently focused on bringing new products to market that leverage existing core strengths, including radiation-hardened memory products for extreme environments, and the APU designed to deliver performance advantages for diverse artificial intelligence applications. GSI Technology is headquartered in Sunnyvale, California and has sales offices in the Americas, Europe and Asia. For more information, please visit www.gsitechnology.com.
