GSI Technology to Participate in Nasdaq / LD Micro Summit Series on September 9, 2026

September 2, 2026

SUNNYVALE, Calif., Sept. 02, 2026 (GLOBE NEWSWIRE) -- GSI Technology, Inc. (Nasdaq: GSIT), the inventor of the Associative Processing Unit (APU), a compute-in-memory architecture for artificial intelligence (AI) and high-performance computing, today announced that Didier Lasserre, Vice President of Sales and Investor Relations, will participate in the Nasdaq / LD Micro Summit Series on Wednesday, September 9, 2026, at Nasdaq's San Francisco headquarters. GSI's presentation will be held at 10:20 a.m. Pacific time with a breakout session to follow.

Event: Nasdaq / LD Micro Summit Series
Date: Wednesday, September 9, 2026
Location: Nasdaq Headquarters, 350 Mission St., 11th Floor, San Francisco, California

The Nasdaq / LD Micro Summit Series brings together a select group of public companies, each delivering a 15-minute company overview to institutional investors. Immediately following each presentation, the presenting company will host a 15-minute breakout Q&A session.

Investors interested in meeting with GSI Technology should contact their LD Micro representative or GSI Technology investor relations.

ABOUT GSI TECHNOLOGY
GSI Technology is at the forefront of the AI revolution with its groundbreaking APU technology, designed for unparalleled efficiency in billion-item database searches and high-performance computing. GSI's innovations, Gemini-I® and Gemini-II®, offer scalable, low-power, high-capacity computing solutions that redefine edge computing capabilities. GSI Technology is headquartered in Sunnyvale, California, and has sales offices in the Americas, Europe, and Asia. For more information, please visit www.gsitechnology.com.

FORWARD-LOOKING STATEMENTS
The statements contained in this press release that are not purely historical are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding GSI Technology's anticipated participation at the Nasdaq / LD Micro Summit Series, and the timing and content of its presentation and breakout session. All forward-looking statements included in this press release are based upon information available to GSI Technology as of the date hereof, and GSI Technology assumes no obligation to update any such forward-looking statements. Forward-looking statements involve a variety of risks and uncertainties, which could cause actual results to differ materially from those projected.

GSI Technology's actual results could differ materially from those projected in the forward-looking statements as a result of a number of factors, including those associated with fluctuations in its operating results; its historical dependence on sales to a limited number of customers and fluctuations in the mix of customers and products in any period; global public health crises that reduce economic activity; the rapidly evolving markets for its products and uncertainty regarding the development of these markets; the need to develop and introduce new products to offset the historical decline in the average unit selling price of its products; the challenges of rapid growth followed by periods of contraction; intensive competition; the continued availability of government funding opportunities; and delays or unanticipated costs that may be encountered in the development of new products based on its in-place associative computing technology and the establishment of new markets and customer and partner relationships for the sale of such products. These risks may be amplified by economic and geopolitical conditions, including changing interest rates, worldwide inflationary pressures, policy unpredictability, the imposition of tariffs and other trade barriers, military conflicts and a challenging global economic environment. These risks are discussed in more detail in GSI Technology's most recently filed Annual Report on Form 10-K, its Quarterly Reports on Form 10-Q and its other reports filed from time to time with the SEC. You are urged to review carefully and consider GSI Technology's various disclosures in this press release and in its reports publicly disclosed or filed with the SEC that attempt to advise you of the risks and factors that may affect its business.
